On 18 November the Roundtable will discuss

1. The production of finished or semi-finished intelligence concerning Bloc activities in Africa.
2. Sources of information on Bloc activities in Africa.

A few of the members who are closely associated with the production of intelligence on this subject will briefly discuss their respective products and to some extent evaluate them in terms of objective, coverage, and sources used. Other reporting, domestic or foreign, may be surfaced and discussed if time permits.

One of the members would like to discuss a problem that has arisen in regard to a little-known compilation of sources of information on this subject. The issuing office requests our evaluation, and our comments on wider distribution or discontinuance. Cost of producing this compilation and possible duplication of effort are prime considerations and a librarian will be present to speak toward these points.

RESUME OF THE FIRST MEETING OF THE AFRICA ROUNDTABLE

25X1A

The first meeting of the Africa Committee--hereafter to be known as the "Africa Roundtable"--was held on 31 July 1959. The chairman, [REDACTED] opened the meeting with a resume of the need for and potentialities of an African discussion group, stressing particularly the benefits that could accrue from regular contacts of Africa-oriented specialists. The point was made that there is a tendency among specialists to confine their efforts within fairly narrow channels of interest, but that all of those present had a need to be more fully aware of each others requirements and capabilities. Equally important, the Africa Roundtable could be a useful forum for the consideration of substantive matters of mutual concern put forward either by members of the Roundtable or by invited guest speakers.

The following individuals were present at the meeting and spoke briefly on the African interests and activities of their Agency components:

25X1A

It was the consensus of the group that future meetings should be held monthly, preferably on Fridays 9:00 or 9:30 a.m.; the length of the meetings should not exceed one and one-half hours; [REDACTED] should continue as chairman.

25X1A

Following a discussion of possible topics and speakers for future meetings, it was decided that, for the next meeting, the chairman should attempt to arrange for a knowledgeable guest speaker--probably from the Department of State--who would be qualified to discuss the role of the United States in Africa, i.e., our present and future policies in that part of the world.
